**AMENDMENT**

Sir:

This is in response to the Official Action dated July 14, 2004.

Please take the following action with respect to the claims in this case.

**Amendment to the Claims**

Cancel Claims 1 and 2.

Claim 3 (re-presented in independent form). A toy animal having a body portion, head and tail, and four spring legs for supporting said animal, a shaft located transverse to said body portion and disposed adjacent the head and supporting an eccentrically mounted weight, a power operated switch controlled motor and drive assembly for said shaft, said motor is reversible to drive the eccentric weight in both a clockwise and counter-clockwise direction to set up different motions of the animal depending on the speed and direction in which the counter weight is moved whereby upon operation of said motor and drive assembly the animal vibrates to provide a jumping action of said legs and attendant movement of said animal.
